LUKi & the LIGHTS™

Host a Screening

Did you know your organization can host a screening of LUKi & The Lights?

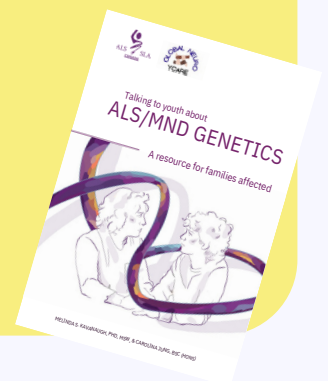

By hosting a screening, you're joining a global movement! LUKi & the Lights has been shown in over 70 countries, and with your help, its impact will keep growing.

Click here to complete the screening form.

New Resource Alert!

We are thrilled to share this new resource in partnership with ALS Canada - helping families understand genetic and the what, how, and when to talk to their children

Download it here!

Research Opportunities

We have an exciting opportunity to better understand the experience of children and youth who provided care to an active or veteran military member.

Through the University of Wisconsin-Milwaukee, and partnered with Wounded Warrior Project and the Elizabeth Dole Foundation to utilize results from this survey to provide better care for veteran family caregivers.

Expanding Translations

We believe everyone deserves access to resources in their native language. We're always looking for partners to help translate our materials into additional languages and dialects.

If you or your organization can support this effort, we'd love to connect!
