

NEW!

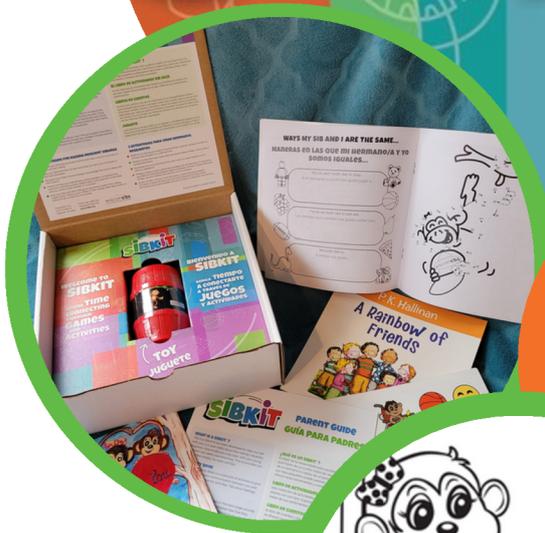

from WisconSibs

for Siblings
ages 3-5

Designed for siblings ages 3-5 and their parents, this engaging kit helps families face the challenges and celebrate the joys that siblings experience when one has a disability.

Inside, parents will find information and resources while their children enjoy fun activities, stories, and even a toy promoting conversation, empathy, connection, and a sense of belonging.

Strengthens bonds by helping young child find words to talk about their sibling's disability.

Helps sibling child build empathy and connection with their sibling with disabilities.

Starts healthy support early—before patterns of isolation or misunderstanding take root.

Offers a fun, proactive way to support emotional health and family unity.
